

Ashland County House Number Request Form

The Ashland County house numbering system is based on a grid system. House numbers correspond to a specific grid location determined by where the driveway enters the road. In order to ensure sequential numbering now and in the future it is **extremely** important that the technician be able to accurately identify the **exact** location of the driveway to which the house number will be associated. The recommended identification aid is a stake with the applicant's name on it. Adding colored material increases visibility. With this information in mind, please fill out the request form, providing as much detail as possible.
