

## ASHLAND COUNTY HOUSE NUMBERS

The EMA Office only issues house numbers to those who live in the county of Ashland.

The office does not issue house numbers to residents living within city or village corporations.

To obtain a new house number for those that reside on township or county roads, a copy of your approved driveway permit is required. The permit is obtained from the County Engineer's Office.

For those who live on state routes or US routes, contact ODOT for driveway approval.

You can email, U.S. mail, or deliver in person, a copy of the approved driveway permit to the County EMA office.

Once received, it may take 7-10 days to process your request.

When the house number is assigned, you and the post office will be notified.
