Elevation-High (1 mi. S. of Widonville on S.R.511).....	1410
Elevation-Low (Mohican River at Holmes Co. line).....	900
Area of Ashland County.....	403 Sq. Miles

**ROAD AND HOUSE NUMBERING INDEX**

County and township roads are numbered according to a grid system designated by the numbered index appearing along county boundaries. The grid intervals are nominally one mile. Roads running east and west are assigned an even number, and roads running north and south are assigned an odd number. For example, Township Road 150 runs east and west, and lies approximately 1.50 miles south of the north county line. Roads ending in "75" are diagonal in nature, or meandering and do not fit the grid system, but their general location can be approximated by referring to either the horizontal or vertical grid indexes. For example, County Road 3275 begins somewhat near grid line number 3200, and then meanders west.

House numbers are assigned using the same grid numbering system.
